

Table 6-5. Source of funds for science and engineering research facility construction projects at Historically Black Colleges and Universities (HBCUs) : 1986-1993
[Current dollars in millions]

Source of funds	1986-1987 ¹	1988-1989 ¹	1990-1991 [Original] ²	1990-1991 [Expanded] ²	1992-1993 [Original] ²	1992-1993 [Expanded] ²
Number of institutions	29	29	29	70	28 ³	68 ³
Total	71.8	55.1	22.5	37.6	8.6	28.8
Federal Government	32.7	35	12.1	13	6.5	4.6
State / local government	25.8	11.5	6.3	18	2	22.4
Private donations	11.1	7.7	0	0	0	0
Institutional funds	2.3	0.9	4.2	4.6	0	0.2
Debt financing	0	0	0	0	0	0
Tax-exempt bonds	0	0	0	0	0	0
Other debt	0	0	0	0	0	0
Other sources	0	0	0	1.9	0	1.6

¹ Data for the first two time periods were heavily inflated by construction activity at a single institution, which accounted for a substantial fraction of the total dollar amount.

² The original group consists of the 29 HBCUs also surveyed in 1988, 1990, 1992; the expanded group is the 1992 and 1994 population of all research-performing HBCUs.

³ Two of the HBCUs were determined to be out-of-scope since they had no S&E researchspace; data are weighted to 28 in the original panel and 68 in the expanded panel.

NOTES: All 1992 or 1993 data are national estimates derived from samples representing the 565 largest research-performing U.S. universities and colleges; all previous year data represent 525 institutions. Findings are limited to projects with estimated total cost at completion of \$100,000 or more for research space. Estimates are prorated to reflect research components because of rounding, components may not add to totals. Dollar amounts are reported in current dollars, unadjusted for inflation. See Table A-5 in the Technical Notes for the inflation adjustment used in Volume I of this report.
